

Syllabus and Regulations Auxiliary Nurse and Midwives

Indian Nursing Council

Combined Council Building, Kotla Road, Temple Lane, New Delhi -110002

Preface

Auxiliary Nurse Midwives (ANM) play major role in improvement of the health and family welfare service. The millennium development goals can be achieved with their active work (involvement) in the community. Infectious diseases such as HIV/ AIDS, TB and Malaria can be prevented and health promotion can be strengthened for all ages especially maternal and child health.

The National Rural Health Mission has been launched by Government of India to bring about improvement in the health system and health status of the people, especially those who live in the rural areas of the country. Some of the objectives of the mission are universal access to public health care services with emphasis on services addressing women and child health, sanitation, immunization, prevention and control of communicable disease including locally endemic disease, access to integrated comprehensive primary health care, population stabilization, gender and demographic balance etc.

With this background the Indian Nursing Council revised the syllabus by having series of consultation with various stakeholders. The components of skilled birth attendant (SBA) and Integrated Management of Neonatal and Childhood Illnesses (IMNCI) has been integrated in the syllabus. Candidates who will qualify after the implementation of the revised syllabus will be able to provide effective qualitative primary health care services in the rural area effectively.

I take this opportunity to acknowledge the contribution of Nursing experts and staff of INC in the preparation of this document.

(T. Dileep Kumar)

Nursing Advisor to Govt. of India, President-Indian Nursing Council
New Delhi

Introduction

Philosophy

Health is a fundamental human right. Maintenance of optimum level of health entails individual as well as social responsibility. However health can never be adequately protected by health services without active involvement of the community.

Indian Nursing Council (INC) believes that ANM/FHW plays a vital role in the rural health care delivery system. She should be sensitive and accountable to meet the health needs of the community. She should be able to provide accessible, equitable, affordable and quality health care. ANM/FHW can act as a catalyst for promoting inter-sectoral convergence in promotive and preventive health care

ANM curriculum intends to prepare skilled and effective female health workers to achieve the goals of National Rural Health Mission which aims at bringing about dramatic improvement in the health system and health status of the country. ANM/FHW would be trained in community health skills to practice basic health care at a defined level of proficiency in accordance with local conditions and to meet local needs'. Further, the programme fits into the general educational pattern as well as nursing education system

Purpose

The purpose of the ANM/FHW course is to prepare an ANM to function at the community level/village with specific skills to fulfill the health needs of the community. She will be an active link between the community and the health care system.

General objectives:

On completion of the course, the ANM/FHW will be able to:

- Appreciate the concept of holistic health and understand the influence of socioeconomic and environmental factors on the health status of the community.
- Identify health problems/needs and resources in the community and mobilize social support for active participation of the community in health care activities.

Provide preventive, promotive, restorative and emergency health care to individuals and community as required.

Provide treatment of minor ailments

Provide skilled midwifery services to all mothers in the community and refer mothers at risk to hospitals.

Provide skilled care to all neonates in community and refer neonates at risk to the appropriate levels.

Render skilled child care services at home, clinic and school.

Guide/Train birth attendants, Anganwadi workers (AW/Y)s , other community health activists and volunteers.

Provide need-based information and counselling related to health of individuals, family and groups.

Participate in all the National health and Family welfare programmes at community level

Act as a team member in the health care delivery system

Coordinate and collaborate with the other health team members and community based organizations, non-govt. organizations (NGO) and village administration

Manage the health centre including equipments and supplies, and maintain the records in order to provide quality based people friendly services.

Update knowledge and skills for professional and personal growth.

Note: The competencies, guidelines and protocols as given in the following documents should form the basis of teaching.

1. SBA module of MOHFW including use of selected life saving drugs and interventions of obstetric emergencies approved by the MOHFW.
2. IMNCI Module for basic health worker

3. Standard safety guidelines for infection control practices (Universal precautions)
4. Biomedical waste management policies

Guidelines for starting a School of Nursing for conducting ANM/ FHW Training

1. Any organization under the Central Government, State Government, Local body or a Private or Public Trust, Mission or Voluntary, registered under Society Registration Act or, a Company registered under company's act that wishes to open an ANM Training School, should obtain the No Objection/Essentiality certificate from the State government.
2. If any Nursing Programme is recognised by Indian Nursing Council, then the institution will be exempted from NOC/Essentiality certificates for ANM from the state government.
3. The Indian Nursing Council on receipt of the proposal from the institution to start ANM training program, will undertake the **first inspection** to assess the suitability with regard to physical infrastructure, clinical facility and teaching faculty in order to give permission to start the programme.
4. After the receipt of the permission to start ANM training program from Indian Nursing Council, the institution shall obtain the approval from the State Nursing Council and Examination Board.
5. Institution will admit the students only after taking approval of State Nursing Council and Examination Board.
6. The Indian Nursing Council will conduct inspection every year till the first batch completes the programme. Permission will be given year by year till the first batch completes.

Minimum Standard Requirements

A school for training of the ANMs should be located in a Community Health Centre (PHC annexe) or a Rural Hospital (RH) having minimum bed strength of 30 and maximum 50 and serving an area with community health programmes. The school should also be affiliated to a district hospital or a secondary care hospital in order to provide experiences of secondary level health care and an extensive gynae-obstertical care.

An organization having a hospital with 150 beds with minimum 3j>50 obstetrics and gynaecology beds , and 100 delivery cases monthly can also open ANM school They should also have an affiliation of PHC/CHC for the community health nursing field experience.

Existing ANM schools attached to District Hospitals should have PHC annexe (accommodation facility for 20-30 students) for community health field experience.

Clinical Facilities

School has to be affiliated to district hospital or a secondary care hospital with minimum 150 beds, in order to provide adequate maternity, childcare and basic medical surgical experiences. The hospital to have adequate number of trained nursing staff round the clock. Bed occupancy on the average to be between 60% - 70%.

Teaching facility

Teaching faculty for 20-40 annual admission:

Category	Minimum qualification and experience
Principal	M.Sc. Nursing with 3 years of teaching experience or B.Sc (N) with 5 years of teaching experience.
Nursing Tutor	B.Sc. Nursing/Diploma in Nursing Education & Administration/Diploma in Public Health Nursing with 2 years

	clinical experience.
--	----------------------

Teacher student ratio at any time should not be less than 1:10

Note:

There should be provision for appointing part-time teachers for subjects required,

Salary of the teaching staff should be at par with the government as far as possible,

Independent family accommodation should be available in or near the campus of the Hospital/CHC Rural Health Treatment Centre for 80% of the teaching staff.

Non Teaching Staff

- Accountant cum cashier - one
- Clerk cum typist - one
- Driver - one
- Cleaner - one
- Office attendant - one
- Sweeper - one

- There should be provision for temporary appointment of reliever in any post when required.

Staff for the hostel

- Warden cum house keeper - one
- Cook cum helper - three
- Sweeper - one
- Chowkidar/Security Guard - three

- Provision of leave reserve should be there.
- Family quarter should be provided for the warden in the hostel so that she
- can be residential to look after the students, and available at the time of

- emergency.
- Cleaning, security, mess facilities may be engaged on contractual basis

Physical Facilities

- **School building** - There should be a separate building for the school and hostel. It should have an open space to facilitate outdoor games for the students.

Office - There should be individual furnished office rooms for: Principal, Teachers, Clerical staff. A separate telephone connection for the school is necessary.

- **Class-room** - There should be two adequately large classrooms, accommodating required number of students (i.e., for 20-40 students size of the room should be 72p sq. ft.). Rooms should be well ventilated and properly lighted. There should be chairs with arms or desks according to the number required. Suitably placed black/green or white board should be available in the classrooms.
- **Nursing laboratory** - There should be a demonstration room with at least two to four beds and adequate number of cupboards with necessary articles for demonstration. Provision should be made for community, midwifery and first aid demonstration and practice.
- **Nutrition laboratory** - There should be provision for nutrition practical. Cooking gas, stove and wash basin with tap connections, suitable working tables and sufficient number of necessary utensils for conducting cooking classes should be available.
- **Library cum study** - There should be a room of adequate size in order to accommodate 40 students at a time, with sufficient number of cupboards, library books and adequate number of chairs and tables for the students. Library should have updated edition of textbooks, referral books, few

professional journals and general knowledge magazines as well as storybooks etc. in sufficient numbers.

- **Audio visual aid** - School must have a TV, DVD player, an overhead projector, LCD projector, laptop for projection computer facility, models, charts, skeleton & manikin/simulators, neonatal resuscitation equipment, home visiting bags, delivery kits etc.
- **Toilets** - There should be adequate toilets facility in the school building for the students and teachers atleast in the ratio 1:10
- **Garage** - There should be a garage for (he mini bus.

Residential Facilities for Students

ANM training, being a residential programme, has to have adequate hostel facilities for the students. The hostel has to accommodate 40-80 students. It has to have the following facilities:

- Safe drinking water facility should be available. All the rooms should to have adequate number of lights and fans.
- Dinning room to accommodate forty students at a time with a hygienic kitchen, pantry and storing facility
- There should be sufficient number of living rooms, to accommodate all students, preferably not more than two in a room.
- Bathrooms and toilets sufficient in number (one for every 10 students).
- One visiting room with sitting arrangement and an attached toilet.
- One recreation room with TV, radio & indoor games.
- One sick room to accommodate 2-4 students, with toilet attached.
- Other facilities like hot water arrangement for winter and water cooler for summer should be there.
- Hostel should have telephone connections,

1 Budget

School should have separate budget and Principal/Principal Nursing Officer should be the drawing and disbursing officer. Budget should make provision for the following:

Salary of Staff

Remuneration of external lecturers

Purchase of library books

Cost of fuel for the school vehicle

Purchase of audio visual aids

Office expenses

Water, electricity, telephone charges etc. :

Contingency

Stipend for students (if given)

Inspection and affiliation fees

ANM School Management committee

The school should have a management committee comprising of:

Principal /Principal Nursing Officer - Chairperson

Nursing Tutor - Secretary

Nursing Tutor/PHN - Member

District Public health Nurse/Nursing Officer - Member

Nursing Superintendent/Nursing incharge
of the Hospital/CHC/RH - Member

Superintendent/Medical Officer incharge
of Hospital/CHC/RH - Member

Quarterly (Once in three months) meetings to be convened regularly to monitor curriculum implementation and examinations.

Transport

- School must have a 20-25 seater minibus
- There should be 6-8 Mopeds for students for community health nursing practice.

Communication

- School must have an independent telephone line.

Annual Admission

Minimum students intake is 20

Maximum students intake is 40

Duration of Course

The total duration of the course is 2 years (18 months + 6 months internship)

First Year:

- | | | |
|-----|--------------------------------------|---------------------------------------|
| i. | Total weeks | - 52 weeks |
| ii | Vacation | - 4 weeks |
| iii | Gazatted holidays | - 2 weeks |
| iv | Preparatory holidays and examination | -3 weeks |
| v. | Teaching hours in weeks | - 43 weeks |
| vi. | Teaching hours per week | - 43 weeks x 40 hours/ weeks=1720 hrs |

Second Year (including internship)

- | | | |
|-----|--------------------------------------|---|
| i. | Total weeks | - 52 weeks |
| ii | Vacation | - 4 weeks |
| iii | Gazatted holidays | - 2 weeks |
| iv | Preparatory holidays and examination | - 2 weeks |
| v. | Teaching hours in weeks | - 44 weeks |
| vi. | Teaching hours per week | - 44 weeks x 40 hours/
weeks = 1760 hrs |

Admission Terms and Condition

1. The minimum age for admission shall be 17 years on or before 31st December of the year in which admission is sought.
2. The maximum age for admission shall be 30 years.
3. The minimum educational requirements shall be the passing of 12 years of schooling (10+2 year course) recognized by CBSE/ICSE/SSSCE/HSCE or a recognized equivalent examination.

I Medical Fitness

Admission is subject to satisfactory medical examination report.

Grand total- 1760 hrs.

Guidelines for intership:

- The ANM students (in a group of 4-5) should be posted in the sub center/ primary health centre with a regular ANM for one month/ 4 weeks for supervised independent practice in the community which should be residential.

- b. The students should participate in all National Health and Family Welfare programmes during their clinical experience.
- c. At least 80% of all the clinical requirements should be completed before appearing for the final (second year) examination.
- d. The principal of the ANM School should certify for each student that she has undergone successfully the internship program completed 100% of the clinical requirements and acquired the requisite competencies as listed in the syllabus before the award of the certificate/ diploma by the state nursing council/ examination board.
- e. The casebook and competency record book should be completed and signed by the competent authority of the school before appearing for the second year practical examination.

Scheme of Examination:

Theory and practical examinations at the end of the first year

Paper	Course	External Assessment	Internal Assessment	Duration
Theory Paper-I	Community Health Nursing	75	25	3 hrs.
Theory Paper-II	Health Promotion	75	25	3 hrs.
Theory Paper-III	Primary Health Care Nursing	75	25	3 hrs.
Theory Paper-IV	Child Health Nursing	75	25	3 hrs.
Practical I	Community Health Nursing and Health promotion	100	100	-
Practical II	Child Health Nursing	100	100	-
	Total	500	300	-

Grand total for first year 800 marks.

Theory and practical examinations at the end of the course, (Second Year)

Paper	Course	External Assessment	Internal Assessment	Duration
Theory Paper V	Midwifery	75	25	3 hrs.
Theory Paper VI	Health Centre management	75	25	3 hrs.
Practical III	Midwifery	100	100	-
Practical IV	Primary Health care nursing and health center management	100	100	3 hrs.

Grand total for second year 600 marks

Note

Question paper for Nursing courses to be set by qualified nursing teachers only.

The venue for practical examination shall be Government District Hospital for all the students of government and private ANM institutions.

Practical examination should be for only 10 students per day.

Supplementary examination should be conducted at six monthly intervals for the failures.

Internal assessment should be done on class test, assignments, report of visits and group work.

All practical examinations must be held in the respective clinical areas and on patients.

One internal and One external examiners should jointly conduct practical examination for each student.

An examiner should be a BSc nursing teacher with minimum of 5 years of teaching experience in ANM programme

or

M.Sc (N) with 3 years of teaching experience in ANM programme Internal assessment will be made on the basis of classroom tests, written assignments, performance in the community and clinical area along with records and reports maintained by the students.

Pass mark for each nursing subject on aggregate will be 50%

A candidate has to pass in theory and practical exam separately in each of the paper.

Average internal marks of the total students shall not be more than 75% i.e, if 40 students are admitted in a course the average score of the 40 students shall not exceed 75% of total internal marks.

Maximum number of attempts permitted for each paper is 3 including first attempt

Maximum duration of completion of the course is 4 years

A candidate failing in more than one subject will not be promoted to the next year.

No candidate shall be permitted to appear in the second year examination unless the candidate has passed the first year examination.

Eligibility for Admission to Examination

1. A candidate must have minimum of 80% attendance (irrespective of the kind of absence) in theory and practical in each subject for appearing for examination.
2. A candidate must have 100% attendance in each of the practical areas before the award of completion certificate/diploma by the state nursing council examination board.

3. On completion of practical experience, records to be signed by the tutor and countersigned by the principal.
4. The examination for the 2nd year should happen at the end of the year. A certificate of completion of internship by each student should be provided by the principal before entering for the examinations.

Grading and Certification

Distinction shall be in aggregate	= 75%
First division	= 70% & above
Second division	= 60% - 69%
Third division	= 50% - 59%

Certificate will be issued on successful completion of training requirement. The principal of the ANM School should certify for each student that she has undergone successfully the internship program, 100% clinical requirements and acquired the requisite competencies as listed in the syllabus before the award of the certificate/diploma by the state nursing councils/examination boards. Qualified ANMs have to be registered by the State Nursing Councils under the provision of the State Nursing Councils and Indian Nursing Council Act as ANMs, before joining services as a qualified Female Health worker and to practice as ANM.

Community Health Nursing

Theory- 120 hours

Demonstration- 50 hours

Total- 170 hours

Learning objectives;

On completion of the course the student will be able to :

1. Describe the concept of community health, primary health (-are.
2. Understand health policies, plans and programmes of the country,
3. Understand the concept of community.
4. Appreciate the role of the health team.
5. Demonstrate home visit techniques and practices in the community
6. Describe structure, function, characteristics and administrative set up of a community.
7. Identify leaders, resources persons, community-based organizations, NGOs, and local resources.
8. Identify community health needs and problems
9. Describe concepts and methods of communication for health information.
10. Describe the purposes, principles and methods of health counseling.

3.	5	5	<ul style="list-style-type: none"> • Assess nutritional status of individual and family. • Identify local foods for enriching diet. • Identify good food habits from harmful food fads and customs. 	<p>Nutritional assessment</p> <ul style="list-style-type: none"> • Methods of nutritional assessment of individual and family: mother and child • Identification of local food sources and their value in enriching diet. 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration • Field visits.

				• Food fads, taboos, customs and their influence on health.	
4.	10	15	<ul style="list-style-type: none"> • Plan diet for a family • Counsel for improving diet of the family. • Demonstrate safe preparation and cooking methods. • Explain methods of safe 	<p>Promotion of nutrition</p> <ul style="list-style-type: none"> • Planning diets and special diets for a family • Methods of using locally available foods for special diet • Principles and methods of cooking • Promotion of kitchen gardens • Food hygiene and safe preparation • Storage and preservation • Food adulteration • Precautions during festivals and Melas. 	<ul style="list-style-type: none"> • Lecture discussion. • Plan diet for the family assigned. • Health education. • Visit a milk pasteurization plant. • Demonstration of various methods of cooking.

Suggested activities for Evaluation

- Cooking of special diet.
- Nutrition education to a group.
- Planning diet of a family assigned.

B. Human body and hygiene

Theory - 35 hrs.
 Demonstration - 20 hrs.
 Total - 55 hrs

Unit	Time (Hrs.)		Expected outcomes	Contents	Teaching Learning Activities
	Th.	Demo			
1.	20		<ul style="list-style-type: none"> Describe the structure and functions of the various systems of body State functions of different organs. 	The human body <ul style="list-style-type: none"> Structure and functions of human body. Body systems and their functions <ul style="list-style-type: none"> digestive system respirator' system. genito urinary system, cardiovascular system, nervous system, muscular system, endocrine system, special sensory organs. 	<ul style="list-style-type: none"> Lecture discussion. Identification of body parts. Explain using Models and Charts.
2.	5	15	<ul style="list-style-type: none"> Understand importance of personal hygiene for self and individuals health. Care for sick to maintain their personal hygiene and comfort 	Hygiene of the body <ul style="list-style-type: none"> Personal and individual hygiene Care of mouth skin, hair and nails. <ul style="list-style-type: none"> Sexual hygiene Menstrual hygiene. Hygiene and comforts needs of the Sick: Care of skin: Bath sponging, back care, care of pressure points, position changing, Care of hair: hair wash Care of hand and nails: hand washing 	<ul style="list-style-type: none"> Lecture discussion. Demonstration.

				<ul style="list-style-type: none"> • Care of eyes: eye wash, • Mouth care: • Elimination Care of bowels and bladder 	
3.	5	5	<ul style="list-style-type: none"> • State the basic human needs. • Explain importance of fulfilling these basic needs. 	<p>Optimal functioning of the body</p> <ul style="list-style-type: none"> • Basic human needs <ul style="list-style-type: none"> - Rest, sleep, activity, exercise, posture etc - Food, eating and drinking habits - Participation in social activities. - Self-actualisation and spiritual need. - Interpersonal and human relations - Lifestyle and healthy habits. 	<ul style="list-style-type: none"> • Lecture discussion. • Health education regarding healthy life style.

Suggested activities for Evaluation

- Preparation of anatomy practical book
- Return demonstration of personal hygiene including care of various organs of body.

C. Environmental Sanitation

Theory - 20 hrs.
 Demonstration - 15 hrs.
 Total - 35 hrs.

Unit	Time (Hrs.)		Expected Outcomes	Contents	Teaching learning Activities
	Th.	Demo			
1	5	2	Explain the importance of basic sanitation at home and in the community.	Environmental Sanitation <ul style="list-style-type: none"> • Environment and ecology for healthy living: basic sanitary needs. • Air, sunlight and ventilation. • Home environment -: smoke, animals, water, drains and toilets etc. 	<ul style="list-style-type: none"> • Lecture discussion. • Case study.
2	5	4	<ul style="list-style-type: none"> • Describe the importance of safe water for health. • Describe methods of purifications of water. 	Safe water <ul style="list-style-type: none"> • Sources of water & characteristics of safe water - sources of contamination and prevention. • Purification of water for drinking : methods- small and large scale. • Disinfections of well, tube well tank and pond in a village. • Waterborne diseases and prevention. 	<ul style="list-style-type: none"> • Lecture discussion. • Village mapping: water sources, drains, ponds and contamination areas. • Visit to a water purification plant.
3	5	4	• Explain the importance of safe	Disposal of excreta and waste.	• Lecture discussion.

			<p>disposal of waste and its role in prevention of diseases.</p> <ul style="list-style-type: none"> • State the hazards due to waste 	<ul style="list-style-type: none"> • Methods of excreta disposal - types of latrine. • Handling animal excreta. • Methods of waste disposal • Hazards due to waste 	<ul style="list-style-type: none"> • Demonstration. • Visit to sewage disposal unit and sanitary latrine
4	5	5	<p>Involve community in sanitation activities. Educate community for safe disposal of different types of waste.</p>	<p>Community participation</p> <ul style="list-style-type: none"> • Drainage and preparation of soak pits. • Maintaining healthy environment within and around village - cleaning and maintenance of village drains, ponds and wells. • Common waste, excreta and animal waste - disposal in the village. 	<ul style="list-style-type: none"> • Lecture discussion. • Construction of a small scale soak pit at school or health centre premises. • Disinfection of a well, tube well along with village leaders or members of community. • Organize village meeting.

Suggested activities for Evaluation

- Purification of water at home, community
- Disinfections of a well/tube well.
- Construction of a small scale soak pit.
- Health education for use of sanitary latrine.

D. Mental Health

Theory - 30 hrs.
Demonstration - 10 hrs.
Total - 40 hrs.

Unit	Time (Hrs.)		Expected Outcomes	Contents	Teaching learning Activities
	Th.	Demo			
1	10	2	<ul style="list-style-type: none"> • Explain relationship between body and mind. • Identify the factors necessary for normal mental health • Educate for promoting mental health . 	Mental Helath <ul style="list-style-type: none"> • Concept of mental health • Body-mind Relationship. • Factors influencing mental health. • Characteristics of a mentally healthy person. • Developmental tasks of different age groups • Different defense mechanisms 	<ul style="list-style-type: none"> • Lecture discussion. • Observation. • Use of quesliormaire to do assessment for mental health status.
2.	3	2	<ul style="list-style-type: none"> • Identify causes of maladjustment • Educate family in solving problems. 	Maladjustment <ul style="list-style-type: none"> • Features of a maladjusted individual. • Common causes of maladjustment. • Counselling an individual, family and community. 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration of counselling for maladjusted individual in the community.
3.	12	4	<ul style="list-style-type: none"> • Identify signs of mental illness. • Identify them early and refer. • Guide family members in home 	Mental illness <ul style="list-style-type: none"> • Identify abnormal behaviours. • Types of mental illnesses and treatments. 	<ul style="list-style-type: none"> • Lecture discussion. • Visit to a mental hospital/ clinic.

			<p>care</p> <ul style="list-style-type: none"> • Counsel for prevention of mental illness. 	<ul style="list-style-type: none"> • Early detection and referral of mentally ill • Prevention of mental illness • Home care and counselling • Refer psychiatric emergencies. 	
4.	5	2	<ul style="list-style-type: none"> • Explain process of ageing. • Identify characteristics of elderly • Provide need based care. 	<p>Old age care</p> <ul style="list-style-type: none"> • Process of ageing - physical, psychological changes. • Needs and problems • Care of elderly at home. • Rehabilitation and agencies of caring elderly. 	<ul style="list-style-type: none"> • Lecture discussion. • If available visit an old age home.

Suggested *activities for Evaluation*

- Assessment of mental health status of Individual
- Care plan for an elderly person at home.

Primary Health Care-
(Prevention of Disease and Restoration of Health)

Theory - 130 hours

Demonstration - 150 hours

Total - 280 hours

Learning objectives:

On completion of the course student will be able to :

1. Explain concept of infection and causation of diseases.
2. Describe body defense mechanisms and development of immunity against diseases
3. Perform immunization effectively.
4. Describe different methods of disinfections and sterilization.
5. Describe common communicable diseases and their management.
6. Explain prevention of common communicable diseases and their control.
7. Describe care of the sick in community with common ailments and refer if required.
8. Explain recognition of conditions related to different body systems.
9. Describe and demonstrate routes of administration of drugs
10. List common drugs used for emergencies and minor ailments, their indications, dosage and actions

A. Infection and Immunization

Theory - 25 hours
 Demonstration - 20 hours
 Total - 45 hours

Unit	Time (Hrs.)		Expected Outcomes	Contents	Teaching learning Activities
	Th.	Demo			
1	2	-	<ul style="list-style-type: none"> Understand concept of occurrence of diseases Describe classification of diseases. 	Concept of disease. <ul style="list-style-type: none"> Concept and definition of illness Disease causation Classification of diseases. 	<ul style="list-style-type: none"> Lecture discussion. Explain using Charts.
2	4	2	<ul style="list-style-type: none"> Understand process of infection. Describe characteristics of microbes Narrate methods of spread of infection State factors affecting spread of infection. 	Infection <ul style="list-style-type: none"> Meaning and types of infection. Causes of infection Classification and characteristics of micro organisms: Pathogenic and Non-pathogenic Incubation period and spread of infection - transmission Factors affecting growth and destruction of microbes. 	<ul style="list-style-type: none"> Lecture discussion. Demonstration Explain using microscope.
3	6	2	<ul style="list-style-type: none"> Understand body defence mechanism State types of immunity Describe different types of vaccine and their 	Immunity and body defense mechanisms <ul style="list-style-type: none"> Body's defense mechanism Immunity - concept Hypersensitivity: Antigen antibody reaction 	<ul style="list-style-type: none"> Lecture discussion. Demonstration Field visits for cold chain.

			preservation.	<ul style="list-style-type: none"> • Types of immunity • Types of vaccines • Storage and care - cold chain maintenance. 	
4	6	4	<ul style="list-style-type: none"> • State immunization schedule • Give immunization • Organize immunization camps • Prepare articles for immunization • Participate in special drives. 	<p>Immunization</p> <ul style="list-style-type: none"> • Immunization against different infections - immunization schedule • Injection safety • Methods of administering vaccine • Sterilization of syringes and needles. • Immunization in the community • Immunization Hazards • Precautions while giving vaccines • Special immunization drives and programmes. • Records and reports 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration. • Posters on immunization schedule • Visit immunization camp/ outreach camp
5	2	4	<ul style="list-style-type: none"> • Collect specimens correctly • Handle body discharges safely • Give health education for disposal of body discharges. 	<p>Collection of specimen</p> <ul style="list-style-type: none"> • Principles and methods of collection of specimens and handling body discharges. • Collection of specimens of blood, sputum, urine, stool • Safe disposal of 	<ul style="list-style-type: none"> • Lecture discussion. • Preparation of malaria slide. • Collection of sputum. • Collection of urine and stool. • Labeling of the specimens.

				body discharges.	• Visit to the laboratory
6.	3	6	<ul style="list-style-type: none"> • Explain difference between antiseptics, disinfection and sterilization • Describe the principles of antiseptics, disinfection and sterilization • Perform disinfections and sterilization of various equipments 	Disinfection and sterilization <ul style="list-style-type: none"> • Principles and methods of antiseptics, disinfection and sterilization • Methods of disinfecting different equipments • Methods of sterilizing different equipments 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration • Visit sterilization department of a hospital.
7.	2	2	<ul style="list-style-type: none"> • Explain the methods of waste disposal 	Waste Disposal <ul style="list-style-type: none"> • Waste disposals- infectious and non-infectious: concepts, principles, and methods at different levels 	<ul style="list-style-type: none"> • Lecture discussion • Demonstration

Suggested activities for Evaluation

- Demonstration of sterilization of syringes and needles/using pressure cooker/ small autoclave
- Demonstration of preparation of Malaria slides.
- Techniques of vaccination
- Assignment on cold chain system.
- Prepare poster/chart on immunization schedule.
- Demonstrate different methods of waste disposable

B. Communicable Diseases

Theory - 40 hrs.
Demonstration 25 hrs.
Total - 65 hrs.

Unit	Time (Hrs.)		Expected Outcomes	Contents	Teaching learning Activities
	Th.	Demo			
1.	7	5	<ul style="list-style-type: none"> • Understand epidemiological concept of occurrence of diseases. • Describe levels of prevention and general measures for control of communicable diseases. • Explain importance of Surveillance. notification reporting. 	<p>Introduction to communicable diseases</p> <ul style="list-style-type: none"> • Common communicable diseases; Epidemiological concepts - Incidence and prevalence, mortality and morbidity. • Levels of prevention • Control and prevention of communicable diseases General measures • Surveillance, isolation, notification. reporting. 	<ul style="list-style-type: none"> • Lecture discussion • Calculation of mortality and morbidity for different diseases. • Visit isolation unit • Surveillance
9	25	5	<ul style="list-style-type: none"> • Describe signs and symptoms of different communicable diseases. • Explain preventive measures for different communicable diseases. 	<p>Communicable diseases.</p> <ul style="list-style-type: none"> • Signs, Symptoms, care and prevention of the following: - Diphtheria, pertussis, tetanus, poliomyelitis, measles and tuberculosis - Chicken pox, 	<ul style="list-style-type: none"> • Lecture discussion. • Visit infectious disease hospital / center. • Demonstration. • Supervised Clinical Practice.

			<ul style="list-style-type: none"> • Describe care and referral for different communicable diseases. 	<p>mumps, rubella, enteric fever, hepatitis, rabies, malaria, dengue, filaria, kala-azar trachoma, conjunctivitis, scabies, STDs and HIV/AIDS</p> <ul style="list-style-type: none"> - Encephalitis - Leptospirosis - Acute respiratory infections. - Diarrhoeal diseases - Worm infestations - leprosy. - Role and responsibilities of health worker/ANM 	
3.	6	8	<ul style="list-style-type: none"> • State the principles of care of infectious cases. • Enumerate Standard safety measures • Understand preventive measures • Provide health education 	<p>Care in communicable diseases</p> <ul style="list-style-type: none"> • Care of patients with communicable diseases. • Isolation methods. • Standard safety measures (Universal precautions) • Health education and messages for different communicable diseases. • Role and responsibilities of health worker /ANM 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration • Prepare health education messages • Prepare chart on Standard safety measures.
4.	2	7	<ul style="list-style-type: none"> • Identify causes of 	Epidemic	<ul style="list-style-type: none"> • Lecture

			epidemics • Define role of health worker/ ANM in relief work.	Management • Definitions and causes of epidemics. • Epidemic enquiry in a community and epidemic mapping • Relief work and role of health worker/ ANM.	discussion. • Community mapping. • Health Education.
--	--	--	--	---	--

Suggested activities of Evaluation

- Preparation of surveillance report
- Conduct Health education
- Demonstration on :-
 - Standard safety measures in Nursing Practice

C. Community Health Problems

Theory - 30 hrs.
Demonstration 50 hrs.
Total - 80 hrs.

Unit	Time (Hrs.)		Expected Outcomes	Contents	Teaching learning Activities
	Th.	Demo			
1	3	10	<ul style="list-style-type: none"> • Identify common health problems in the community • Perform health assessment of individual • Render care to the sick at home • Advise family members in care of sick 	Care of the sick in the community <ul style="list-style-type: none"> • Common health conditions in the community -danger signs of illnesses. • Health assessment: Taking history, Physical examination: Vital signs. Weight, Height: recognition of abnormalities • Identification of health problems • Management of the sick: home and community nursing procedures, care of the sick, referral • Health education: individual and family 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration. • Supervised clinical practice. • Health education
2.	3	8	<ul style="list-style-type: none"> • Check and record vital signs • Describe stages of fever • List common conditions causing fever • Provide care to patients with fever 	Fever <ul style="list-style-type: none"> • Vital signs: Temperature, pulse, respiration, blood, pressure • Temperature maintenance and the physiology of fever • Fever: Types and stages • Causes of fever - 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration. • Supervised clinical practice.

				<p>common conditions causing fever, malaria, typhoid, Acute respiratory Infection (ARI) etc</p> <ul style="list-style-type: none"> • Nursing management of patient with fever • Alternate system of medicine 	
3.	4	6	<ul style="list-style-type: none"> • Enumerate causes, sign and symptoms respiratory problems • Provide Care to patients with respiratory infections. • State common home remedies and their application. 	<p>Respiratory problems</p> <ul style="list-style-type: none"> • Common respiratory problems: types, classifications- cold and cough, ARI, Asphyxia, tonsillitis, asthma, bronchitis pneumonia and tuberculosis • Causes, sign and symptoms, treatment of respirator problems • Management: Role and responsibilities of ANM/health workers in care of respiratory problems including Home care remedies. • Integrate accepted practices of AYUSH 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration. • Demonstration of steam inhalation, nasal drops, oxygen inhalation • Health education discussion • Demonstration. • Supervised clinical practice. • Health education
4.	2.	2	<ul style="list-style-type: none"> • Identify cause and provide care and support • Refer when necessary. 	<p>Aches and pains</p> <ul style="list-style-type: none"> • Causes and nursing management of : Tooth ache, ear ache, abdominal pain, headache, joint pains. • Management as per the standing orders and protocols • Role of ANM/health 	<ul style="list-style-type: none"> • Lecture discussion • Demonstration • Health education

				worker in the community including Home care remedies • Integrate accepted practices of AYUSH	
5.	3	4	<ul style="list-style-type: none"> • Identify cause and provide care and support • Refer when necessary • Identify cause and provide care and support • Refer when necessary 	Digestive problems <ul style="list-style-type: none"> • indigestion. anorexia, vomiting, distension and Constipation • Haemorrhoids. hernia, ulcers and intestinal obstruction • Role of ANM/health worker in the community including Home care remedies. • Integrate accepted practices of AYUSH 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration. • Health education
6.	3	3	<ul style="list-style-type: none"> • Identify cause and provide care and support • Refer when necessary. 	Urinary problems <ul style="list-style-type: none"> • Signs and symptoms of renal conditions • Retention of urine, renal colic, edema • Role of ANM/health worker in the community including Home care remedies. • Integrate accepted practices of AYUSH 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration • Health education
7	3	3	<ul style="list-style-type: none"> • Identify cause and provide care and support • Refer when necessary 	Cardiovascular problem <ul style="list-style-type: none"> • Signs and symptoms of cardiac conditions and blood related problems: heart attack, chest pain, anemia, • hypertension and 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration. Health education

				<p>leukemia</p> <ul style="list-style-type: none"> • Care of a cardiac patient at home • Role of ANM/health worker in the community including Home care remedies. • Integrate accepted practices of AYUSH 	
8	2	3	<ul style="list-style-type: none"> • Identify cause and provide care and support • Refer when necessary 	<p>Diseases of the nervous system</p> <ul style="list-style-type: none"> • Signs and symptoms of neurological problems - Headache, backache and paralysis • Care of a patient with stroke at home. • Care of pressure points, back care changing of positions, active and passive exercises, body support to prevent contractures. • Role of ANM/health worker in the community including Home care remedies. • Integrate accepted practices of AYUSH 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration. • Health education.
9	3	4	<ul style="list-style-type: none"> • Identify cause and provide care and support • Refer when necessary • Give insulin injection • Counsel for prevention of complications 	<p>Metabolic diseases</p> <ul style="list-style-type: none"> • Diabetes - signs and symptoms, complications diet and medications • Skin care, foot care • Urine testing and administration of insulin injection. • Integrate accepted practices of AYUSH 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration. • Health education

10	2	4	<ul style="list-style-type: none"> • Identify the conditions • provide care to relieve pain • Prevent complications and refer 	Diseases of musculo skeletal system <ul style="list-style-type: none"> • Signs and symptoms of sprain, tear of ligaments and arthritis. • Integrate accepted practices of AYUSH 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration. • Case study. • Health education
11	2	3	<ul style="list-style-type: none"> • Identify need of handicapped • Ensure need base care at home 	Care of handicap <ul style="list-style-type: none"> • Handicaps - different types • Counselling for prevention of certain handicaps • Understandings the handicapped person • Helping family to ensure need based care 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration. • Case study.

Suggested activities for Evaluation

Demonstration of

- Urine testing for albumin and sugar.
- Urinary catheterization
- Local application of cold and hot
- Plain water enema
- Checking of B.P. and TPR
- Disease conditions.

D. Primary Medical Care

Theory - 20 hrs.

Demonstration - 20 hrs.

Total - 40 hrs.

Unit	Time (Hrs.)		Expected Outcomes	Contents	Teaching learning Activities
	Th.	Demo			
1	5	4	<ul style="list-style-type: none"> • Name different systems of 	Types of drugs <ul style="list-style-type: none"> • Different Systems of medicine: allopathic and 	<ul style="list-style-type: none"> • Lecture discussion. • Calculation of

			<p>medicine</p> <ul style="list-style-type: none"> • Understand abbreviations • Calculate dosages of medicines • Understand classification of drugs. 	<p>AYUSH</p> <ul style="list-style-type: none"> • Classifications of drugs • Forms and characteristics of drugs • Abbreviations used in medication • Administration of drugs: Policies and regulations, as per protocols and standing orders • Calculation of dosage 	<p>dosage and conversion.</p> <ul style="list-style-type: none"> • Drug study.
2	5	10	<ul style="list-style-type: none"> • Demonstrate administration of drugs • Explain importance of observations and recording. 	<p>Administration of drugs</p> <ul style="list-style-type: none"> • Routes of administration -Oral, parentral (intradermal, intramuscular, subcutaneous, Intra venous), rectal, local and others. • Administration of drugs: Precautions, principles • Observations and recording. 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration. • Practice session • Preparation and administration of IV fluids as per protocol • Preparation for blood transfusion as per protocol.
3	5	2	<ul style="list-style-type: none"> • Administer drugs for minor ailments • Explain the care of drugs. 	<p>Drugs used in minor ailments</p> <ul style="list-style-type: none"> • Common drugs for fever, cold and cough, aches and pains etc. • Drug kit in the subcentre. content and its use • Storage and care of drugs 	<ul style="list-style-type: none"> • Lecture discussion. • Visit subcentre. • Demonstration
4	5	4	Administer emergency drugs following precautions.	<p>Common emergency drugs</p> <ul style="list-style-type: none"> • Methergine, misoprostol injection 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration • Drug study.

			oxytocin, IV fluids, antibiotics, injection and magnesium sulphate deriphylline, avil and other antihistaminic, pelhecline, vitamin K, antirabies vaccine, anti snake venoms as per the protocol <ul style="list-style-type: none"> • Precautions for administration • Storage and Care of emergency drugs 	
--	--	--	--	--

Suggested activities of Evaluation

- Preparation of list of common drugs used in sub centre, their action dosages and use.
- Demonstration of administration of medication by different routes
- Drug study

E. First Aid and Referral

Theory - 25 hrs.
Demonstration - 35 hrs.
Total - 60 hrs.

Unit	Time (Hrs.)		Expected Outcomes	Contents	Teaching learning Activities
	Th.	Demo			
1	2	7	<ul style="list-style-type: none"> • Understand principle of first aid care • Use first aid kit • Demonstrate different type of bandages 	Need for First Aid <ul style="list-style-type: none"> • Principles of first aid • Mobilization of resources • First aid kit & supplies. • Bandages: Types, Uses • Principles and methods of 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration. • Practice session.

				bandaging	
2.	10	5	<ul style="list-style-type: none"> • Demonstrate first aid care for Cuts and wounds, Foreign bodies, Burns and scalds • Health education and referral 	<p>Minor Injuries and ailments</p> <ul style="list-style-type: none"> • Cuts and wounds : types, principles and first aid care • Foreign bodies • Burns and scalds types, principles and first aid care • Health education and referral • Role of ANM/health worker 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration. • Practice session • Supervised clinical practice. • Health education
3.	5	8	<ul style="list-style-type: none"> • Identify different bones • Describe types of fracture • Apply splints and bandages • Transfer fractured patients correctly. 	<p>Fractures</p> <ul style="list-style-type: none"> • Skeletal system and different bones. • Fractures: Types. Causes, signs and symptoms, first aid care, • Methods of immobilization and transportation. 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration. • Practice session
4.	8.	15	<ul style="list-style-type: none"> • Follow principles of first aid and provide care in different emergencies 	<p>Life Threatening Conditions</p> <ul style="list-style-type: none"> • Bleeding • Drowning • Strangulation, suffocation and asphyxia • Loss of consciousness • Cardio respiratory arrest 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration. • Nasal pack • Apply tourniquet. • BLS demonstration. • Insertion of naso gastric tube

				<ul style="list-style-type: none"> • Convulsions • Foreign bodies • Chest injuries • Shock and allergic conditions • Poisoning, bites and stings • Stroke • Heat stroke • Severe burn 	<ul style="list-style-type: none"> • Practice session
--	--	--	--	---	--

Suggested activities for Evaluation

- Demonstration of following:
 1. Wound care
 2. Splints, slings, bandages
 3. Transportation of casualties
 4. BLS Basic Life Supports
 5. Naso gastric tube insertion
 6. Care during different emergencies

Child Health Nursing

Theory - 75 hours

Demonstration - 110 hours

Total - 185 hours

Learning objectives:

On completion of the course the student will be able to :

1. Assess growth and development of a child at different ages.
2. Describe nutritional needs of different age groups of children.
3. Provide care to sick children during their common illness.
4. Describe school health programme
5. Describe 'Rights' of children
6. Educate mothers and family member as per need of their children.

Unit	Time (Hrs.)		Expected Outcomes	Contents	Teaching learning Activities
	Th.	Demo			
1.	20	20	<ul style="list-style-type: none">• Assess growth and development in infants and children• Maintain 'road to health' chart• Explain the needs of a child• Describe the care of a normal child• State the common accidents in children and their protection	Growth & development <ul style="list-style-type: none">• Introduction to Growth and development• Factors affecting growth and development• Growth and development in infants and children: Assessment• Physical, psychological and social development of children	<ul style="list-style-type: none">• Lecture discussion.• Demonstration.• Explain using road to health chart.• Health educationVisit a school.

				<ul style="list-style-type: none"> • Monitoring and recording of growth and development of infants and children • Care of infants and children - play, hygiene, emotional needs training for bowel and urination • Accidents: causes, precautions and prevention. • Congenital anomalies 	
2.	20	20	<ul style="list-style-type: none"> • Explain the importance of breast feeding • Educate mothers regarding breast feeding • Explain complimentary feeding • Educate for nutrition of children according to age 	<p>Nutrition of infants and children</p> <ul style="list-style-type: none"> • Exclusive Breast feeding • Nutritional requirements • Complementary feeding • Problems of feeding • Breast feeding Counselling • Infant feeding and HIV • Baby friendly hospital initiative 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration.
3	5	10	<ul style="list-style-type: none"> • Describe the rights of children • State the steps for prevention of child labour and child abuse. 	<p>Children's Rights</p> <ul style="list-style-type: none"> • Convention of Rights of the Child • Prevention of child labour • Abuse and legal protection • Special care of girl child. 	<ul style="list-style-type: none"> • Lecture discussion. • Survey the areas where child labour is used in the community.

				• Female infanticide	
4.	10	35	<ul style="list-style-type: none"> • Provide care to the sick children • Identify the signs and symptoms of common childhood disorders • Identify signs of high risk in case of ARI and Diarrhoea • Educate mother and family members regarding prevention of illness. 	<ul style="list-style-type: none"> Care of the sick child • Common childhood disorders: • Signs, symptoms and management. • Vaccine for preventable diseases • Acute Respiratory tract infections • Diarrhoea vomiting, constipation • Tonsillitis and mumps • Ear infections • Worm infestation • Accidents and injuries • Skin infections • Fever - malaria, measles. • IMNCI strategy 	<ul style="list-style-type: none"> • Lecture discussion. • Explain using charts. • Preparation of ORS at clinic/home • Demonstration. • Explain using slide. • IMNCI protocols
5	15	20	<ul style="list-style-type: none"> • Assess the school child • Need based counselling of children, teacher and parents. 	<p>pare of School children</p> <ul style="list-style-type: none"> • School health: Objectives, problems and programmes Environment of school • Assessment of general health of school children • Denial and eye problems • Nutritional deficiencies • School health education for 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration • Health education.

				children • Need based sharing of health information with teachers/parents/children • Records and reports	
6.	5	5	• Explain the various, changes in the adolescents	Care of adolescents • Physical growth during adolescence • Emotional and behavioural changes in girls and boys • Special needs of adolescents. • Sex education for adolescents • Counselling	• Lecture discussion. • Demonstration. • Explain using charts and models.
7	10	10	• Discuss the special needs of girl child • Explain the effect girl child discrimination in the family and community • Counsel mother and community on need for care of a girl child	Care of adolescent girls • Menstruation and menstrual hygiene • Special nutritional needs • Early marriage and its affects • Adolescent girls: pregnancy and abortion • Preparing for family life- pre marital counseling. • Role of ANM/ female health worker	• Lecture discussion. • Explain using charts. • Health education.

Suggested activities for Evaluation

- Case studies
- Breast feeding techniques
- Preparation of ORS

- Preparation of complementary feeds
- Assessment of growth and development of children
- Assessment of common childhood illnesses in infant, children and adolescent
- Poster on:
 - Growth and development
 - Prevention of common accidents in children
 - Menstrual cycle.
 - Physical changes in adolescence

Midwifery

Theory - 200 hours
Demonstration - 160 hours
Total - 360 hours

Learning objectives:

On completion of the course the student will be able to:

1. Describe male and female reproductive organs.
2. Explain process of conception and foetal development
3. Describe female pelvis and the muscles involved in delivery of foetus.
4. Conduct normal delivery and provide care to the newborn.
5. Provide care to pregnant mother during ante, intra and post natal period at home and hospital.
6. Provide need based counselling to the mother and to her family during .. antenatal, intranatal and postnatal period.
7. Resuscitate the high risk new born baby
8. Identify high-risk pregnancies and refer them immediately for safe motherhood.
9. Identify deviation from normal labour in time and take necessary action.

10. Provide adequate care identifying abnormal puerperium.
11. Administer the drugs as per the protocols
12. Educate community for improving quality of life of the family.
13. Promote improvement in the status of women in society
14. Identify women's health problem and provide guidance and support.
15. Provide care and guidance to women with reproductive health problems.
16. Participate in reproductive health and family welfare programmes.

Unit	Time (Hrs.)		Expected Outcomes	Contents	Teaching learning Activities
	Th.	Demo			
1	8		<ul style="list-style-type: none"> • Describe structure and functions of female reproductive system • Describe structure and functions of male reproductive system 	Human Reproductive System <ul style="list-style-type: none"> • Female reproductive organs - structure and function • Menstrual cycle • Male reproductive organs structure and functions • Process of conception 	<ul style="list-style-type: none"> • Lecture discussion. • Explain using birth atlas, posters, models charts and slides.

				• Role of ANM/female Health worker	
--	--	--	--	------------------------------------	--

Suggested activities for Evaluation

- Taking of history and antenatal examination.
- Demonstration of vaginal examination
- Plotting of partograph during labour
- Return demonstration of normal delivery using five 'C's
- Demonstration of perineal care
- Essential Care of newborn
- Apgar score and resuscitation of a new born baby.
- Health education on exclusive breast-feeding
- Midwifery case book.
- Demonstration of immunization
- Drug book
- Records and reports
- Case studies
- Preparation of posters on methods of Family Welfare
- Demonstration of IUCD insertion,
- Information Education and Communication
- Calculation for vital indicators

Health Center Management

Total - 80 hours

Theory - 40 hours

Demonstration - 40 hours

Learning objectives:

On completion of the course the student will be able to :

1. Organise sub center and clinics to carry out scheduled activities.
2. Indent and maintain necessary stock

3. Participate in the implementation of National health programmes
4. Update knowledge and skills
5. Provide guidance to TEA, AWW, ASHA and other voluntary health workers.
6. Collaborate and coordinate with other health team members and agencies
7. Maintain records and reports

Unit	Time (Hrs.)		Expected Outcomes	Contents	Teaching learning Activities
	Th.	Demo			
1	10	5	<ul style="list-style-type: none"> • Organize and set up a sub centre • Prepare a sub centre activity plan • Conduct meetings • Conduct clinics at sub centre. • Display health messages. 	<p>The sub center</p> <ul style="list-style-type: none"> • Organization of functions and facilities of sub centre • Sub centre activity plans • Conduct a clinic and special programs and follow up • Conducting meetings and counselling sessions. • Sub centre action plan • Information, education and communication • Display of messages 	<ul style="list-style-type: none"> • Lecture discussion. • Demonstration. • Visit sub centre • Attend a clinic at the sub centre.
2.	4.	10	• Write indents	Maintenance of	• Lecture
